STEPHENS SALIENT SIX

The gradually growing popularity of the Stephens is due to the definite satisfaction which this car gives its owner.

It comes from owner appreciation of the finer workmanship and the true beauty and style of Stephens hand built bodies.

It comes, also, from owner satisfaction in the greater service of the modern Stephens engine.

An engine that is no respecter of the grades of gasoline you supply it—that burns all the gasoline, thus wasting no fuel, and no power.

A salient service, that comes to owners in the form of speed, endurance, flexibility, hill-climbing ability, and smooth riding at their maximum.

Stephens leadership is a just leadership solidly fixed in the minds of Stephens owners, who agree that, "to own a Stephens is to enjoy the height of motor car satisfaction."

People of Utah !

WHEN YOU BUY SUGAR CONSIDER THESE TWO THINGS:

This circular mark upon a sugar bag means that it contains **TRUE WEIGHT** of the **HIGHEST QUALITY SUGAR** obtainable.

It is a **Guarantee of ALL THAT IS GOOD IN SUGAR !**
Every bag of sugar bearing this label has paid a liberal share of profit to the Farmer, the Laborer and the Business Man of the State of Utah.

The "Better Way" to Health

Until a few years ago all people sought to secure Health from **outside** the body.

However, progress has now shown us that Health is **inside the physical**, and will keep **all parts well** if properly distributed over the nerves.

Chiropractic proves that 90% of all diseases originate from "pinched nerves" emitting from the spine. The obstruction is easily removed by Chiropractic Adjustments.

Get the idea and alleviate much of your suffering.

A Persistent Advertiser

One of the most persistent advertisers in the history of success was Robinson Crusoe.

He believed in advertising—He knew what he wanted—a ship—

And he put up an ad for one.

He flung a shirt on a pole at the top of his island; that in the language of the sea, was plain to every seafaring man.

The circulation was small and there was no other medium, but Crusoe kept it there despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another was flapped out—and in the end he got what he wanted, was happy and his name and fame have come down through the ages.

The present day merchant is much better off than Crusoe.

HE HAS THE CITY DIRECTORY

through which he can reach all the people, some of whom want his goods. Your chances of success are thousands to his one, but your chances of failure are the same as his.

Suppose Robinson Crusoe had taken down that signal after, say, a year, and declared "Advertising doesn't pay." Where would he and his story now be?

Put up your signal and keep it up. There will be a number of ships cruising around during that year, that will be glad to call and take you off the island of Dull Business.

Crusoe advertised under discouraging circumstances—You have got a sure thing—**THE CITY DIRECTORY.**

IS BY FAR the oldest Agency under the same management in existence.

IT DOES Revise semi-annually by traveling reporters—issue brief but thorough reports—date them plainly—pay its principal correspondents—give subscribers copies of their agreements—gather reliable failure statistics—publish bank clearing reports.

IT DOES NOT Handle collections—pad out its reports—take two-year or three-year or self-renewing subscriptions—give service to more than one house on a single subscription—accept subscriptions from any but reliable houses—depart from its schedule of prices.

IT WAS THE FIRST AGENCY to publish a Rating Book—issue daily sheets—substitute direct notices of business changes for the sheets—rate branch houses—assign division ratings—insert R. F. D. references—formulate reports in paragraphs.

It has INAUGURATED every real improvement in agency service.

The Business Men's Organization

There has been a call for it for years. And now that we are in a day of reconstruction and adjustment, the demand for such an organization is intensified. In the several cities and towns, commercial clubs have been doing praiseworthy service, but there is still lacking that coordination between all business interests in the entire state, which, after all, is the prerequisite for intensive statewide development.

Embraces every line of business in the state. The head of every business concern in Utah is eligible to membership. It is an open forum for the discussion of problems of common interest. Concerted action and mutual sympathetic support can now be made possible. It is actually being achieved thru this organization.

It is a powerful factor in bringing business men to appreciate the necessity of unity of action against any invasion of their constitutional rights.

You are respectfully invited to apply for membership.
